Dear General Practitioner

I hope this newsletter finds you well after the summer.

We will have quite a few new members joining us at Litfield House over the Autumn period and will be introducing all of them via our newsletters over the coming months. Firstly, we would like to welcome Richard Lee Kelland and his team who will be setting up a practice in the "House" from BICP (Bristol Independent Community Paediatrics) for some much-needed paediatric private medical treatments for neurodevelopmental conditions (full profile below).

Please also have a look at our Upcoming Events, where you will find our full list of Lectures for our last series of lectures for 2023.

Trisha Tanner

Practice Manager

BRISTOL INDEPENDENT COMMUNITY PAEDIATRICS

LOCAL PRIVATE COMMUNITY PAEDIATRIC CLINIC OPENING

BICP is a new private CQC regulated medical service based in Litfield House in Clifton Bristol.

Our multidisciplinary team consists of locally based NHS paediatricians, psychiatrists, and therapists. Providing assessments and medical treatments for neurodevelopmental conditions including Autism and ADHD in line with national

(NICE) guidelines.

We can both initiate and provide long term medical oversight around medication for treatment of these conditions.

In addition we also provide educational support for children with neurodiversity to help them reach their full potential in school.

Services we offer:

- ADHD assessment.
- ADHD medication prescription and follow up.
- Autism diagnostic assessment.
- Sleep consultation and medication support in children with neurodiversity.
- Educational support for children with neurodiversity.
- Assessment of Specific Learning Difficulties such as Dyslexia and Dyscalculia
- Speech and language therapy

Please see our website: www.bicp.co.uk
