Dear General Practitioner.

LITFIELD HOUSE 2025 CHRISTMAS CHARITY DONATION

Every Christmas Litfield House donates to a local charity. This year we have decided to donate to the Children's Hospice South West.

Their purpose is to make the most of short and precious lives and to put babies, children, young people and their families at the centre of all they do.

Their vision is to provide high quality care to every baby, child and young person in the Southwest who may not live to their 18th birthday.

Trisha Tanner

Practice Manager

Somerset Early Scans is an award-winning private ultrasound clinic. Led by Doctors with industry-leading clinical governance, we are proud to be rated "Outstanding" in all areas by the Care Quality Commission (CQC).

We offer a comprehensive range of pregnancy ultrasound services, including early viability, reassurance, gender determination, and growth scans, providing expectant parents with clarity, confidence, and peace of mind. Each scan includes high-quality images and a detailed report to take home.

Alongside pregnancy care, we have a strong focus on women's health. Our specialist services include pelvic and endometrial thickness scans, as well as menopause and pessary consultations, supporting women through every stage of life.

We also provide a range of blood tests, including fertility hormone profiles and the Non-Invasive Prenatal Test (NIPT), offering further insight into reproductive and pregnancy health.

Our highly trained and compassionate sonographers use advanced ultrasound technology in a discreet, comfortable, and professional environment, ensuring every appointment is a positive and informative experience.

With clinics now in **Bristol (Litfield House Medical Centre)**, Bridgwater, Bath, and Exeter (Holmedale Health), we remain committed to delivering exceptional care, quality, and patient well-being across the South West.
